Technical Specifications

Parameter	Specification
Product	Water Still Table Model
Capacity	4 Litre approx.
Boiling Chamber	Stainless steel, insulated to prevent heat loss
Condenser	Special borosilicate glass
HSN Code	84194090

Model Options

Catalogue No.	Description	Capacity
PT-305	Water still, table model	4 Litre approx.

Applications

- Purification: high-purity water from contaminants and dissolved solids
- Laboratory use: distilled water for experiments and analysis
- Medical and pharmaceutical: sterile water for formulations
- Quality control in food and beverage industries
- Environmental analysis: preparing water samples
- Educational demonstration of distillation

Why PT-305

- Insulated stainless steel chamber minimises heat loss.
- Borosilicate glass condenser for clean distillate.
- Compact table model for bench use.
- Approx. 4 litre capacity.

Standards & Quality

- Manufactured under ISO 9001:2015 quality system.
